Project Name	personalizednetworkassistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student	Find events, communities, and people that match my interests	I receive many irrelevant recommendations and spend a lot of time searching	Current networking platforms do not understand my interests and preferences properly	Frustrated and worried that I may miss useful opportunities.
