

Project Demo Planning

Date	8 july 2026
Team ID	XXXXXX
Project Name	Personalized network assistant
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the need for an AI-powered networking assistant, and describe the objectives.	2	Maram Sruthi
2	Solution Overview	Explain the system architecture, technologies used (FastAPI, Streamlit, DistilBERT, GPT-2, Wikipedia API), and project workflow.	3	Nandini Devi Kotari
3	Live Feature Demonstration	Demonstrate user login, event description input, theme extraction, conversation starter generation, and fact verification.	5	Ogirala Sajeeva Rao
4	Conversation History & Feedback	Show how conversation history is stored and how users can provide feedback for future improvements.	2	Vaishnavi
5	Testing & Results	Present testing results using Pytest and demonstrate successful execution of all major features.	3	Kowtarapu Naga Reshma
6	Conclusion & Future Enhancements	Summarize the project, discuss benefits, future scope, and answer audience questions.	2	Maram Sruthi

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the networking challenges and the motivation behind developing the Personalized Networking Assistant.
2	Solution Overview	Describe the architecture, AI models (DistilBERT and GPT-2), FastAPI backend, Streamlit frontend, and Wikipedia API integration.

3	Live Feature Demonstration	Demonstrate event description input, theme extraction, AI-generated conversation starters, fact verification, conversation history, and feedback module
4	Q&A Session	Answer questions from the panel and discuss future enhancements such as multilingual support, cloud deployment, and personalized recommendations
